About us

With over 19 years of experience in the IT field, Murtadha IT Consultancy (MIT) is well-equipped to assist in architecting, sourcing, implementing, supporting, and maintaining IT solutions.

Therefore, we analyse your IT environment and suggest a work plan to improve, upgrade, and redesign it.

Additionally, we take responsibility for implementing the suggested work plan to ensure its full delivery.

Vision

Ensure that users are able to fully utilise IT environments for their benefit.
Mission

Addressing our customers' needs and requirements in IT environments is crucial to ensuring that they get the best out of it.
